Reasons For Allowance

The following is an examiner's statement of reasons for allowance: Prior art, Castle et al. discloses a resin panel body (figure 2 number 21), an insert film (figure 2 numbers 20,23,22 combined) arranged on a surface of the resin panel body (figure 2 number 21), the insert film comprising a resin film (figure 2 number 21), a first binder layer formed on the surface of the resin film (figure 2 number 23), a printed part formed on the first binder layer (figure 2 number 6), a second binder layer (figure 2 number 22) formed so as to seal the printed part in co-operation with the first binder layer (figure 2 number 23) wherein, the second binder layer directly contacts both the printed part along a surface of the printed part which faces the resin panel body and the first binder layer along a periphery of the printed part (figure 2 number 22, 6), wherein the first binder layer, the printed part and second binder layer are formed in this order (figure 2 numbers 23,6,22); and wherein the printed part adheres to the first binder (figure 2 number 23) and to the second binder layer (figure 2 number 22) and wherein the entire printed part consists entirely of ink (col. 1 line 16). Prior art, Castle et al. fail to disclose wherein the periphery of the resin film extends beyond the periphery of the first binder layer such that the entire surface of the first binder layer which faces the resin film directly contacts the resin film. Applicant teaches that when the periphery of the resin film extends beyond the periphery of the first binder layer such that the entire surface of the first binder layer which faces the resin film directly contacts the resin film, the adhesiveness between the resin film and the panel body is superior than the

adhesiveness between the first binder layer and the resin film or between the second binder layer and the panel body (spec. page 8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
